1- What did you learn from your work experience?

I learned to improve my technical knowledge in the programming area, mainly with React

2 – What aspects of your work experience did you find most challenging?

The first time I started programming I found it very challenging. It was something that challenged me a lot

3 – What aspects of your work experience did you find most difficult?

The hardest part was working with a library called Leaflet. It is used to work with maps

4 – What did you like most about the work experience you had?

Travel to Ribeirão Preto and represent the company I work for at an event called Agrishow

5 – During your work experience, what are the 3 most important skills?

Communication, organization and patience

6 – What are your strengths and weaknesses?

One of my strengths is that I find it easy to learn new things and one of my weaknesses is that I don't have the patience to do something slowly

7 – What did you do in the last year to improve your knowledge?

I went to college and took several additional courses in my field.

8 – What is the most difficult thing you have ever done?

Give a presentation talking about the company to more than 30 people

9 – What are the 3 things that are most important for you in a job?

good work structure, good colleagues and good management

10 - What motivates you to work?

See my personal evolution and that of the people around me

11 - How long do you plan to continue working where you are?

I currently have no plans to leave my current job. There I am learning and evolving a lot in all aspects

12 - Is it better to be a boss or an employee? Why?

I believe that being an employee is easier because there is less responsibility in all aspects
